

Andrea González García Aldariz

Postdoctoral Researcher · Psycholinguistics, Music Cognition & Cognitive Neuroscience

andraldariz@hotmail.com / andreaoboe.96@gmail.com | ORCID: 0000-003-0395-4064 | Nebrija University, Madrid, Spain

CURRENT POSITION

Postdoctoral Researcher *Nebrija University — CINC Faculty of Languages and Education, Spain | since Dec 2025*
Research on bilingual processing of emotional and contextual cues in language comprehension using EEG/ERP. Teaches Music Education, supervises undergraduate research, and co-organised the Linguistic Break seminar series.

EDUCATION

PhD in Applied Linguistics to Language Teaching *Nebrija University, Spain — 2025*
Bachelor's Degree in Music Performance (Oboe) *Royal Conservatory of Music of Madrid, Spain — 2022*
Master's in Bilingual Education *Nebrija University, Spain — 2020*
Double Degree in Early Childhood and Primary Education (English major) *Nebrija University, Spain — 2019*

RESEARCH EXPERIENCE

Predoctoral Researcher (FPU Fellowship) *Nebrija University, Spain | 2021 – 2025*
Spanish Government FPU fellowship (FPU20/06880). Doctoral project: "Emotion processing during social interaction in a second language."
Research Stay — Max Planck Institute for Psycholinguistics *Nijmegen, Netherlands | Sep – Dec 2023*
Three-month doctoral research stay under Dr. Peter Hagoort.
Teaching Assistant *British Council Teaching Centre, Spain | 2015 – 2020*

RESEARCH PROJECTS

- **MULTIPRAG** — Neuro-cognitive processes of multilingual communication: integration of pragmatic information during second language and foreign-accented speech comprehension. PI: Alice Foucart, Nebrija University. Team member, since Jul 2025 (ongoing).
- **NEUROSYN** — Neural mechanisms of human communication: brain synchronization in first and second language. PI: Alice Foucart, Nebrija University. Team member, 2021–2024.
- **FPU20/06880** — Emotion processing during social interaction in a second language. PhD project, Nebrija University, 2021–2025.

TECHNICAL & METHODOLOGICAL SKILLS

- **Neuroimaging:** EEG/ERP experimental design, data collection, and advanced analysis
- **Analysis:** MATLAB, R
- **Stimulus creation:** Praat, Audacity (linguistic and auditory stimuli)
- **Music:** Conservatory-level oboe performance; formal training in music theory and performance
- **Languages:** Spanish (native), English (C2 level), French (B2 level)

PEER-REVIEWED PUBLICATIONS

González-García Aldariz, A., Moreno, E., & Foucart, A. (2025). ‘How do they feel?’ Processing others’ emotions in second language discourse. *Language Learning*.

González-García Aldariz, A., Moreno, E., & Foucart, A. (2024). “Beyond the literal meaning”: processing implied emotion in second language discourse — an ERP study. *Language, Cognition and Neuroscience*, 39(8), 1090–1096.

Scrimshire, C., Amador, S., González-García Aldariz, A., Meza, G., & Gómez, P. (2023). An evidence accumulation account of masked translation priming in two bilingual populations. *Brain Sciences*, 13(7), 1066.

González-García Aldariz, A., Rodríguez-Gómez, P., Romero-Rivas, C., Rodríguez-Cuadrado, S., Foucart, A., & Moreno, E. (2023). 'Good for you!' Processing social emotions in L2 discourse comprehension — an ERP study. *Bilingualism: Language and Cognition*, 26(2), 440–445.

CONFERENCE PRESENTATIONS

- Does it feel the same in an L2? Processing literal and metaphorical pain in L1 and L2. XV SEPEX & II Joint SEPEX-BAPS meeting 2026, Valencia, 2026, Spain
- Feeling the Pain in a Second Language: ERPs reveal the processing of Literal and Metaphorical Meaning. II Simposio Internacional de Lengua, Emoción e Identidad, Universidad Antonio de Nebrija, 2025, Spain.
- How Do They Feel? Understanding Others' Emotions in a Second Language. 9th Workshop on Multilingual Acquisition, Processing and Use, Universidad Antonio de Nebrija, 2025, Spain.
- Do words burn in a second language? Processing literal and metaphorical pain in L2 discourse comprehension: an ERP study. XIV SEPEX, UAL, 2024, Spain (Poster).
- What are they feeling? Processing others' emotions during second language comprehension. 15th International Symposium on Bilingualism, BCBL, 2023, Spain (Poster).
- When words cut deep: Understanding literal and metaphorical pain in L2 sentence comprehension using ERPs. 17th International Symposium of Psycholinguistics, UAB & UOC, 2025, Spain (Poster).
- Do you know how I feel? Processing other's emotions in second language discourse. Cognitive Sciences Doctoral Symposium, RPTU, 2024 (Poster).
- Understanding their emotions: Processing others' emotions in second language discourse. Donders Discussion 2024, Donders Institute, 2024 (Poster).
- Tell me if it hurts! Processing literal and metaphorical pain in L2 discourse comprehension: an ERP study. Summer School of Linguistics 2024, Charles University, 2024 (Poster).
- How do they feel? Processing others' emotions in second language discourse. Highlights in the Language Sciences, Language in Interaction, 2024 (Poster).
- ¿Lo sientes? Procesamiento emocional durante la lectura de frases en una segunda lengua. I Congreso Internacional Jóvenes Investigadores Nebrija, Universidad Nebrija, 2024 (Oral presentation).
- Bilinguals May Not See It Coming in a Second Language: Processing Social Feelings in L2 Discourse Comprehension: An ERP Study. Psychonomic Society 23rd Annual Meeting, 2023, United States of America (online) (Poster).
- Beyond the literal meaning: Processing implied emotion in second language sentence processing. 15th Annual Meeting, Society for the Neurobiology of Language, 2023, France (Poster).
- Do words burn in a second language? Processing literal and metaphorical pain in L2 discourse comprehension: an ERP study. EEG and MEG methods multi-hub meeting, Cutting Gardens, 2023 (Poster).
- Beyond the literal meaning: Processing implied emotion in second language discourse. XVI International Symposium of Psycholinguistics, University of the Basque Country, 2023 (Poster).
- Bilinguals May Not See It Coming in a Second Language: Processing Social Feelings in L2 Discourse Comprehension: An ERP Study. Psychonomic Society 23rd Annual Meeting, 2022, United States of America (online) (Poster).
- Good for you! Processing social emotions in L2 discourse comprehension: an ERP study. I Simposio Internacional de Lengua, Emoción e Identidad, Universidad de Alcalá, 2022, Spain (Poster).
- Bilinguals may not see it coming in a second language. International APPE-SEPEX Meeting, Sociedad Española de Psicología Experimental, 2022, Portugal (Oral Presentation).
- ¿Y tú, qué sabes? Theory of Mind in a foreign language. XV International Symposium of Psycholinguistics, Universidad Complutense de Madrid y Universidad Antonio de Nebrija, 2021, Spain (Oral Presentation).
- Neurodidactics. New trends in Foreign Language Learning: The Neurodidactic Approach. 1st International Conference for Young Researchers in Cognitive Linguistics (YRCL), Universidad Complutense de Madrid, 2019, Spain (Oral Presentation).
- Neurodidactics. Education through the Eyes of Science: Implementing Neurodidactics to the Foreign Language Learning Field in Primary Education. IV International Congress on Applied Linguistics in Language Teaching: On the Road to Plurilingualism, Universidad Antonio de Nebrija, 2019, Spain (Oral Presentation).

AWARDS & FELLOWSHIPS

- FPU Fellowship, Spanish Ministry of Science, Innovation and Universities (2021–2025)
- Language Learning Dissertation Grant
- Three Minute Thesis Award
- Best Poster Award, XVI International Symposium of Psycholinguistics

SUMMARY

I am a postdoctoral researcher at Nebrija University. My research examines how bilinguals integrate emotional and contextual cues during language comprehension, using EEG/ERP to study real-time interactions between semantics, affect, and discourse. I have strong expertise in EEG/ERP experimental design, data collection, and advanced analysis (MATLAB, R), as well as in the creation of linguistic and auditory stimuli (Praat, Audacity). I have collaborated with Dr. Susanne Brouwer (Radboud University) on speech-in-music interference, combining psycholinguistics and music cognition. At Nebrija, I teach Music Education, supervise undergraduate research, and have co-organised the Linguistic Break seminar series. I previously held an FPU fellowship from the Spanish Government and received the Language Learning Dissertation Grant, the Three Minute Thesis Award, and the Best Poster Award at the XVI International Symposium of Psycholinguistics. In 2023, I conducted a research stay at the Max Planck Institute for Psycholinguistics under Dr. Peter Hagoort. I hold degrees in Early Childhood and Primary Education (English major), a Master's in Bilingual Education, and a Bachelor's in Oboe Performance. My research aims to bridge music cognition, emotion, and multilingual processing, and I seek to extend my methodological expertise within interdisciplinary projects on bilingualism, emotion, and sound perception.
